LETTER ACCOMPANYING FILING OF DIVISIONAL APPLICATION
UNDER 37 C.F.R. §1.53(b)

Commissioner for Patents
P.O. Box 1450
Alexandria, VA 22313-1450

Sir:

The accompanying divisional application is being filed with an amended specification and claims.

The specification has been amended to include a complete cross-reference to the earlier U.S. and international applications and to Americanize spelling.

The claims have been amended to place them in better form for examination on the merits in the United States. The claims have been amended to remove multiple dependencies, to use American spelling and to otherwise comply with U.S. practice. Rewriting the claims without using multiple dependent claims has resulted in a larger number of total claims than in the PCT application. Support for Claims 1-70 can be found in Claims 1-31 of the parent application as originally filed as PCT/EP99/08687 and throughout the specification, including the Examples, of the subject application. In large part, new Claims 1-32 correspond to PCT Claims 9-16; new Claims 33-62 correspond to PCT Claims 17-25; and new Claims 63-70 correspond to PCT Claims 26-30. However, some of the most specific of the new claims are based on the disclosure in the specification, including the Examples. The subject matter of PCT Claims 1-8 has been cancelled because

it has been allowed in the parent application. The subject matter claimed herein corresponds to that of Groups III through X of the restriction requirement set forth in the Interview Summary of March 10, 2003 in parent Appln. No. 10/111,000. No new matter has been added by this amendment.

Respectfully submitted,

BURNS, DOANE, SWECKER & MATHIS, L.L.P.
